MSC Bethancourt Ballroom  1-3 PM

Poster# Abstract Title
1  Epigenetic Regulation of Metabolic Disease
2 A-B  Childhood Food Security
3  Good at Math? How Teacher Mathematics Anxiety Affect Their Students
4  Impact of Communication Design on Customer Satisfaction: Insights from Online Courses
5  Over-Churched and Under-Fed: Organizational Missions of Religion and Food Security
6  Why Do STEM Majors Become STEM Majors?
7  Historical Biography in World Cultures: Using Narratives to Enhance Middle School Social Studies Experiences
8 A-B  Nutrition and Health of 17th-Century Sailors
9  Layer-By-Layer Polymer Assemblies with Antimicrobial Agents for Biomedical Applications
10  Synthetic Polymeric Antioxidants for Corrosion Protection
11  Supporting Women in Stem Learning in Informal Settings
12 A-B  Exploring the Properties of Wehner Complex Using Computational Methods & Computational Investigations of Molecular Gyroscopes
13  Developing STEM Language of Elementary Students Through Making
14  Jobs and Party Switching: an Overview of 2016 U.S. Presidential Election Results by Employment Rate
15  A Study of Porcine Epicardial Lymphatics
16 A-B  Neurosteroid or Epigenetic Therapeutics for Acquired Epilepsy
17  Algebraic Formula Predicting the Fraction of Absorbed Fluid Transported by Mesenteric Lymphatic Vessels
18 A-C  Characterization of The Upper Camp Bird III Rock Glacier in the San Juan Mountains, Colorado Using Electromagnetic Induction
19  Aggienova: Exploding Stars
20  BitGrange: Development Of A Smart Hydroponics Device To Grow Vegetables Indoors
21  Dopamine’s Effects on Lymphatic Vessels
22  Dopamine Effects on Lymphatic Vessels
23  Role Of Replication Protein A (Rpa) in T Elomere Maintenance
24  Novel Mammalian Similarity Principle Predicted From the Minimal Closed-Loop Cardiovascular Model
25  X-Nav Interplanetary Mission Simulation
26 A-B  Shaping the Cotton Microbiome for Sustainable Pest Management
