Texas A&M University

Research Advisor: Dr. Sarah M. Misemer
Department of Hispanic Studies
Texas A&M University

Research Advisor: Dr. Sumana Datta
Department of Biochemistry and Biophysics
Texas A&M University

Your Abstract must be a “complete snapshot” of your manuscript and be a stand-alone piece. Since the text of the Abstract will be distributed widely through a variety of databases, formal citations, images, and complex equations should not be included. The Abstract introduces your specific motivation/problem/question and shows how your artifact answers the research question. The creative work is the combination of your analysis, artifact, and reflection. Therefore, the remaining content should describe your exhibition and reflection. The Abstract should be between 250 and 500 words. This paragraph is 91 words.
